ABOUT US

DUNAMIS Consulting Engineers and Project Managers is a Namibian multi-disciplinary engineering firm that specialises in engineering and project management services.

We are a wholly Namibian owned, fully BEE compliant, with 100% of the equity of our company. Founded in 2012, DUNAMIS Consulting Engineers and Project Managers is recognised as one of the most professionally managed consulting engineering firms in Namibia, with a team of partners who are experts in their chosen fields. The firm employs a staff complement of more than 10 highly competent people.

DUNAMIS Consulting Engineers and Project Managers strives to achieve excellence in all the services it provides and to provide meticulous attention to detail, whether the project is large or small. It is an independent company with no obligations, or ties to any commercial concern that could influence the professional judgement, recommendations, or decisions given by the company.

Our strict approach to quality control is manifested through our rigorous testing and monitoring regimes. Furthermore, we endeavour to ensure timely completion within budget by close, effective monitoring and tight control through project leaders.

OUR PROFESSIONAL ASSOCIATES

OUR VISION

Our vision is to become a leading engineering firm by providing creative, lasting solutions in the engineering industry for the successful completion of infrastructure projects, thus enhancing socio-economic growth.

OUR MISSION

Our mission is to provide our clients with the highest quality engineering services in a timely, efficient and cost effective manner. In order to achieve its vision and mission, DUNAMIS Consulting Engineers and Project Managers:

- » Provides a full range of high quality innovative, appropriate, cost effective and sustainable engineering solutions on all projects.
- » Employs highly competent, motivated and experienced staff while continuously identifying and nurturing young prospective individuals to realise their full potential.
- » Offers incomparable treatment and service quality to all its clients, there by developing sound customer relations and customer satisfaction.
- » Implements sound business management principles and effective strategies to ensure the long-term viability and growth of the company.

FOUNDERS

Engelberth A. Uushona

Gabes T. Muteka

Abisai T.T. Nambahu

DUNAMIS Consulting Engineers and Project Managers was established by three professional engineers from previously disadvantaged backgrounds; Engelberth A. Uushona, Gabes T. Muteka and Abisai T.T. Nambahu.

Since its establishment, DUNAMIS Consulting Engineers and Project Managers philosophy is to be known as an independent professional practice, owned and managed entirely by engineers and professionals who demonstrate exceptional competence, professionalism, honesty and integrity.

OUR TEAM

MANAGEMENT TEAM

DUNAMIS is 100% owned by Namibians and the management of the firm's operations is administered by highly competent and experienced personnel.

ENGELBERTH A. UUSHONA Civil Engineer | Director

Uushona is a qualified and registered civil engineer and project manager with vast experience spanning over 15 years in the civil engineering industry ranging from civil engineering designs to construction management, costing and pricing, tender documentation, contract administration and site supervision. Uushona holds a Bachelor of Technology Degree in Civil Engineering from Cape Peninsula University of Technology, South Africa and a National Diploma in Civil Engineering and Project Management from Namibia University of Science and Technology.

ABISAI T.T. NAMBAHU Civil Engineer | Director

Nambahu is a qualified and registered civil/structural engineer and project manager with over 15 years of experience. His expertise ranges from conceptual designs, detailed designs, tender documentation, contract administration, site supervision to project management of various civil and structural engineering projects. He has a Bachelor of Technology Degree in Civil Engineering from Cape Peninsula University of Technology, South Africa. He also holds a National Diploma in Civil Engineering and Project Management from Namibia University of Science and Technology.

TALENT MUZANARWO Structural Engineer | Engineering Manager

Muzanarwo a structural engineer and engineering manager at DUNAMIS Consulting Engineers and Project Managers with over 10 years' credible experience in complex structural engineering designs and construction site supervision. Muzanarwo also oversees the entire engineering and technical functions of the firm. He obtained his Bachelor of Engineering Degree in Civil Engineering from the National University of Science and Technology, Zimbabwe.

—• IVY SHIKONGO

Finance and Administration Manager

Shikongo is the head of the finance and administration departments at DUNAMIS Consulting Engineers and Project Managers with over 10 years of experience, her other responsibilities include costs and management accounting, human resource management, budgeting and reporting as well as compliance with the relevant authorities. She holds a Bachelor of Commerce in Law from the University of South Africa as well as a National Diploma in Accounting and Finance from the Namibia University of Science and Technology.

◀◀◀ TECHNICAL TEAM

DUNAMIS Consulting Engineers employs a highly competent technical team to deliver sustainable, highly quality assets that not only meet but exceed client expectations. Our technical department is administered by competent and motivated engineers

—• ISRAEL NHULEIPO

Lead Civil Engineer | Roads and Stormwater

Nhuleipo is the lead civil engineer for the roads and stormwater department at DUNAMIS Consulting Engineers and Project Managers. He holds a Bachelor of Technology Degree in Civil Engineering from Namibia University of Science and Technology as well as a National Diploma in Civil Engineering from the same institution.

—• LAURIKA KRÖHNE

Lead Structural Engineer

Kröhne is a structural engineer at DUNAMIS Consulting Engineers and Project Managers. She has 15 years of working experience in the consulting industry. Her field of expertise is structural analyses, structural design, detail design of structural elements, site supervision, project coordination and project management. She holds a Bachelor of Engineering in Civil Degree from the Namibia University of Science and Technology.

—• PROSPER CHIKANGAISE

Lead Agricultural Engineer

Chikangaise is heading the agricultural department at DUNAMIS Consulting Engineers and Project Managers. He holds a Bachelor Degree Honours in Agricultural Engineering from Chinhoyi University of Science and Technology, Zimbabwe. His experience ranges from planning, feasibility studies, designs and implementation of various agricultural and irrigation projects.

KENNY AMADHILA

Lead Civil Engineer | Water and Sanitation

Amadhila is a civil engineering technician and project manager at DUNAMIS Consulting Engineers and Project Managers with over 10 years of experience ranging from conceptual design, project cost estimation, detail design, contract administration, and site supervision to project management of various civil engineering services. He is currently pursuing his Bachelor of Technology Degree in Civil Engineering at the Namibia University of Science and Technology.

NAFTAL ENDJAMBI

Lead Electrical Engineer

Endjambi is the lead electrical engineer at DUNAMIS Consulting Engineers and Project Managers with over 5 years of experience. His experience includes On-grid and Off-grid Solar (PV) systems designs, and underground and overhead reticulations designs in adherence to applicable electrical standards. Endjambi has sound knowledge of energy auditing, standby and/ or backup generators, and uninterruptible power supplies and their controls. He holds a Bachelor of Technology Degree and a National Diploma in Electrical Engineering from Cape Peninsula University of Technology, South Africa.

NDEIWANA ANDOWA

Civil | Agricultural Engineer

Andowa is a civil engineer at DUNAMIS Consulting Engineer and Project Managers. He holds a Bachelor's Degree in Construction Engineering from HAMK University of Applied Science, Hameenlinna, Finland. Andowa also serves as the agricultural engineer in the agricultural engineering department, integrating innovative solutions to enhance farming practices and rural development.

AUDREY MUGWAMBI

Mechanical Engineer

Mugwambi is a mechanical engineer at DUNAMIS Consulting Engineers and Project Managers with a meticulous approach and a commitment to continuous learning. She delivers exemplary results in mechanical-related engineering projects. She holds a Bachelor of Engineering Degree in Mechanical Engineering from the Namibia University of Science and Technology. Additionally, Audrey holds a certificate from the WomEng Southern Africa Fellowship, highlighting her dedication to fostering diversity and excellence in the mechanical engineering field.

◀◀◀ SUPPORT TEAM

—• LYDIA DEVELIAS

Marketing and Business Development Officer

Develias is the marketing and business development officer at DUNAMIS Consulting Engineers and Project Managers. She is responsible for developing marketing strategies, assisting with the development of methods for the generation of awareness as well as developing and implementing a Business Development plan for the company and its affiliated entities. Develias holds an Honours Degree in Business Administration from the International University of Management.

—• JOSEFINA ANGULA

Finance Officer

Angula is the financial officer at DUNAMIS Consulting Engineers and Project Managers. She has over 5 years of experience in Finance, with responsibilities including Financial Reporting, Cash Administration, Debtors and Creditors Control, Budgeting, and Annual auditing. She holds an Honours in Accounting and Finance from the University of Namibia and an Advanced Diploma in Accounting and Finance.

—• CARMEN SWARTZ

Senior Administrative Officer

Swartz is responsible for the day-to-day administrative duties at the firm and serves as the liaison officer between the firm and its stakeholders. She holds various certificates in Office Administration.

—• SELMA KAHITJI

Office Assistant

Kahitji is the office assistant at DUNAMIS Consulting Engineers and Project Managers. She is responsible for all basic cleaning in and around the office building, she performs and documents routine inspection activities as and she promotes an atmosphere of teamwork by assisting co-workers.

AREAS OF EXPERTISE

DUNAMIS Consulting Engineers and Project Managers is a one stop professional project execution company that undertakes bankable feasibility studies and the implementation and maintenance of engineering projects. We offer the services of specialists who are knowledgeable and have extensive experience in the following fields.

We provide start-to-end project consultancy ranging from feasibility study, master planning, detailed design, project management, construction supervision, and testing and commissioning

PROJECT MANAGEMENT

- » Feasibility Studies
- » Planning and Implementation of Infrastructure
- » Contract Management and Administration
- » Budgeting and Financial Control of Projects
- » Project Evaluation
- » Project Close Out
- » Government and Institutional Development and Support

MENTORSHIP AND TRAINING

Mentoring and training form an integral part of the DUNAMIS Consulting Engineers and Project Managers Human Resources Development Programme. Within this program, DUNAMIS offers its employees vertical job enrichment, career planning, and career advancement opportunities.

In addition, DUNAMIS Consulting Engineers and Project Managers offers Bursary Schemes to learners from disadvantaged communities, by providing significant career opportunities to learners and contributing to the future of engineering excellence in Namibia.

GIVING BACK

DUNAMIS Consulting Engineers and Project Managers facilitates a number of social responsibility projects that contribute to the communities in which it operates. One of these projects is the company's annual sponsorship of the Christmas parties for the elderly and vulnerable children from various disadvantaged communities in the Hardap Region.

DUNAMIS Consulting Engineers and Project Managers also gives back to disadvantaged schools by offering "day in the life of an engineer" to learners in the senior secondary level that excel in Math and Science. The objective of this initiative is to encourage learners to consider engineering as a career of choice.
